SOVAL PORTFOLIO

www.sovalmetals.ae

SOVAL is A leading Emirati processor of ferrous and non-ferrous metal scraps with business operations in several countries around the globe. We buy, recycle, and sell scrap metals of all kinds. Soval Metals has emerged as one of the most-trusted brands over the years with our commitment to quality and our strong capability to handle any volume and any type of recyclable metal scrap.

About Us

SOVAL METALS LLC

With operations in most parts of the world, the company is rapidly growing with the expansion of yards, increasing volume of scrap metal handling and growing workforce. We are commitment to the highest quality standards and focus on nurturing customer relationships. Over the years, we have built a strong base of satisfied customers and vendors. With quick and easy-to-track transactions, the company has set a new standard in offering the best competitive rates to scrap metal suppliers. On the other side, the company can deliver any volume of recycled scrap metal to customers worldwide in less turnaround time. We pride ourselves in maintaining strong relationships with our customers and safeguarding them from market risks by facilitating with hedging option. We continuously aspire to offer world-class customer service and deliver the best quality materials and services.

We purchase, recycle, and sell all types of metal scrap including Aluminium, Copper, Wires & Cables, Brass, Lead, Nickel alloys, Titanium, Stainless steel, and Zinc. With operations in multiple locations worldwide. We can fulfil any demand and handle large volumes of metal scrap at short notice with strict adherence to international quality and safety standards. We have the capability to supply recycled scrap metal to every country in the world while ensuring our materials are best in quality and within permissible radiation limits. We are committed to preserving the environment and building a brighter future for the generations to come as we continue to expand globally.

International Metal Trading

We export to almost all parts of the world through our production sites located in many countries. Production sites are all certified in accordance with ISO 9001, ISO 14001 and ISO 50001.

الألومنيوم Aluminum

سبائك الألومنيوم Aluminum Ingot

ALUMINUM INGOT : We are a leading manufacturer of high-quality aluminum ingots 95%, 96%, 97%, 98%, 99%, pure for various industrial applications.

خرقة كارتر Carter's Scrap

CARTER'S SCRAP : We have ready stocks of Aluminium Tense Scrap (Carter), it is a type of clean Aluminum Castings Scrap. It may contain auto and airplane castings , and it is free of iron, brass, dirt and other non-metallic items¹. The oil and grease in Aluminium Tense Scrap is not total more than 2%.

خرقة UBC UBC Scrap

UBC SCRAP : UBC Aluminium Used Beverage Cans Scrap consist of clean, used aluminum beverage cans ONLY. It is free of steel, lead, foil, glass, organic material or any other contamination. Material is BRIQUETTES and banded to skids. Aluminum Used Beverage Can (UBC) is a packaging container made primarily of aluminum

أسلاك الألومنيوم Aluminum Wires

النحاس Copper

سبائك النحاس Copper Ingot

COPPER INGOT : Copper is a ductile, soft, malleable metal with excellent thermal and electrical conductivity. Copper is used in almost all electrical wiring and heating elements, generators, renewable energy, internet cables, and appliances. Copper is used to produce plates, strips, pipes, wire or shapes. We manufacture, buy and sale different types of copper ingots and copper scrap.

خردة النحاس Copper Scrap

أسلاك نحاسية 8 mm Copper Wires

حببيات النحاس Copper Granules

خردة النحاس الأصفر Brass Scrap

BRASS SCRAP : Brass is a copper-zinc alloy with variable proportions of copper and zinc to achieve different mechanical and electrical properties. We handle all different grades of brass including aluminium bronze, cupro-nickel and brass ingots.

سبائك النحاس الأصفر Brass Ingot

النیکل Nickel

خردة الكوبالت Cobalt Scrap

COBALT SCRAP : We Provide a large quantity of Nickel scrap, it refers to discarded or waste materials containing nickel. Nickel is a silvery-white metal that is known for its corrosion resistance, high melting point, and excellent electrical and thermal conductivity.

HS 25 Alloy نیکل HS 25

HS 31 Alloy نیکل HS 31

Battery Plate (Nickel Cadmium) لوم البطارية (كاديوم و نیکل)

BATTERY PLATE (NICKEL CADMIUM) : We offer Battery Plate Scrap for our clients. These Battery Plate Scraps are dry and free from water, acid, plastic, solid lead parts. We provide this Battery Plate Scrap at highly affordable price range.

القصدير Tin

سبائك القصدير Tin Ingot

TIN INGOT : Low minimum order quantity (MOQ) and flexible production capabilities. High-quality Tin ingot supplier, quality manufacturer, trustworthy. Manufacturing Sales. Quality Certification. Tin has excellent properties for electrical conductivity and is an essential element in solder products. Refined tin is also consumed in chemicals, glass, copper alloys, plating and energy storage devices.
